

KLOVE FM 90.7 radio is available in my listening area and is an important service for my family, my friends and myself. I can rely on the fact that KLOVE serves my area with integrity, safe entertainment and news. It would be a significant impact to my community if we were to lose KLOVE for any reason including displacement by an LPFM broadcaster. KLOVE is the only station in this area that unites people from across the nation with uplifting, positive and non sexual, or explicit entertainment. This nation should protect stations and listening areas like KLOVE that do not impose undesirable and graphically illicit material on its listeners.
